Hassle-free solutions

We understand that every customer is different. That's why we work closely with you to get a better understanding of your requirements and any unique challenges.

Our industry know-how, global partnerships and experience allows us to address these pain points and customise a solution to meet your needs.

Why Kirra Services

Data security

The security of our customers data is of paramount importance and is handled accordingly via ISO27001 certified processes from collection through to final asset disposal.

Accreditations

Our processes are accredited to international standards including:

- ISO9001 (quality management)
- ISO14001 (environmental management)
- ISO27001 (information security management)
- ISO45001 (WHS management)
- R2 (responsible recycling)

Secure processing facility

We use a purpose fit-out facility that has been designed with multiple levels of security.

Market-leading erasure software

We only use the best - Blancco.

National reach

We support customers Australia-wide, providing quality outcomes no matter where you are located.

Top buyback pricing

We offer premium prices for used IT equipment which can then be used by our customers to supplement IT budgets.

Environmentally friendly recycling

If your equipment retains no commercial value, it will be disposed of via our R2-certified recycling process to ensure it doesn't end up in landfill.
